

## How does EBOO Quantum+ work?

There are many healing mechanisms of action at play, with the main one being that ozone in the blood makes an oxidative stress causing the body to respond and heal.

UVBI, red light, infrared light, and polychromatic full visible light therapies all add photonic energy to the red blood cells, causing a healing cascade to occur. The quantum technology adds quantum energy into your body field. Specifically, these therapies do the following (and much more):

- Decreases inflammation by balancing cytokines.
- Increases cell mediated immunity like phagocytes and Killer T-lymphocytes.
- Balances Cytokines and Interferons which keeps balance of the immune system (like balance of The Force in Star Wars).
- Increases Nitric Oxide (blood vessels)
- Increases RBC flexibility
- Increases NAD
- Increases ATP
- Increases metabolism
- Increases antioxidant system by upregulating NRF2 with moderate oxidation burst (the brief moderate oxidation burst revs up NFKb to cause more temporary inflammation (like revving a car in a good way).

## What is EBOO Quantum+?

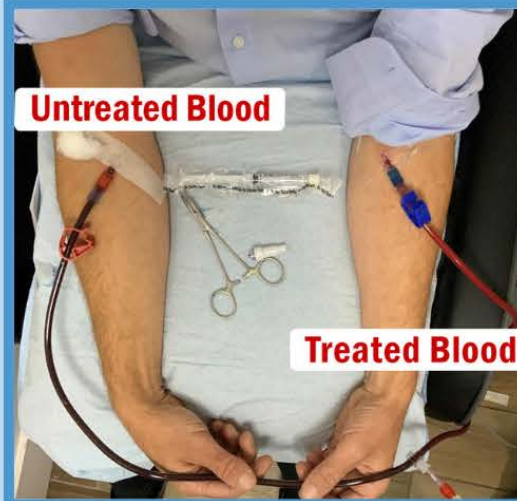

**EBOO Quantum+** is a patent pending therapy made up of the following components:

**EBOO (Extracorporeal blood oxygenation and ozonation)** refers to continuous ozonation of your blood performed outside of your body. Ozone has many scientifically well-documented healing effects in the body and we believe that EBOO is **the most therapeutic way** to receive ozone alone. EBOO is sometimes referred to as O3D, EBO2, Ozone dialysis, or RHP (recirculatory hemoperfusion).

**EBOO "Quantum"** therapy enhances all EBOO sessions by using technology that harnesses the power of quantum energy and directs it into your blood for added benefit.

**EBOO "Quantum+"** therapy takes the unique combo of EBOO with quantum technology and up-levels those by adding one or more (or all) of the following healing modalities to maximize your healing potential. Each of these "+" additions are effective stand-alone therapies, but together they synergistically create more energy for the body to heal itself.

- UVBI (ultraviolet blood irradiation)
- Polychromatic light therapy (full-spectrum visible + infrared light therapy)
- Methylene Blue
- Red light therapy (additional to enhance the effects of methylene blue)
- Light helmet worn on the head with red and infrared light pulsed at specific brain-enhancing frequencies
- Living Sea Minerals
- NAD
- B12
- Hydrogen water

## Is EBOO Quantum+ Safe?

Yes, **thousands of studies** have shown that Ozone and ultraviolet blood irradiation (UVBI) are safe, and they are actually **safer than taking aspirin**. Millions of Ozone and UVBI treatments have been performed since the 1930s. Over 100,000 therapies are successfully performed each year.

## How Effective is EBOO Quantum+?

**Ozone + UVBI** work synergistically. In the 1990's Vasogen spent \$225 million proving that they work better together on over 20 disorders as they underwent FDA trials. **EBOO Quantum+ works with over 100 serious illnesses**, with the most commonly named being:

- Allergies
- Auto Immunity
- Diabetes
- Cancer
- Cardiovascular & Circulatory Issues
- Chronic Fatigue
- Fibromyalgia
- Colitis
- Infections (Bacterial & Viral, Especially EBV, Lyme, SARS-CoV2, Herpes, etc.)
- Inflammation
- Kidney Disease
- Macular Degeneration
- Neurological Conditions (MS, Dementia, PD, etc.)
- Pain
- Pulmonary Issues (Lungs) (COPD, Fibrosis, Asthma, etc.)
- Rheumatoid Arthritis
- Surgery (Pre And/Or Post-Surgery for more rapid healing)

## What does EBOO Quantum+ do?

These combined **safe and effective therapies work synergistically** to help your body's immune system and inflammation cascade find balance so **your whole body will heal itself more easily**. This therapy improves and balances many health conditions, including autoimmunity, inflammation, immune system and infections, micro blood vessel circulation, tissue healing, energy at the cellular level, and more. A well-balanced immune system and inflammation cascade are the keys to maintaining health and feeling great!
